

FIGHT FOR FREEDOM OF THAW

Begins in Senate Chamber of New Hampshire's Capitol

JEROME ARRIVES EARLY

Accompanied by Assistant Attorney General of New York—Thaw's Mother and Brother Present at the Hearing.

(ASSOCIATED PRESS TELEGRAM)
Concord, N. H., Sept. 23.—Harry Kendall Thaw wept today as his counsel pleaded with Governor Feltner not to surrender him to the authorities of New York who determined to return the fugitive to the Matteawan asylum from which he escaped.

Seated only a few feet from William Travers Jerome, Thaw seemed to follow the arguments closely but when his eyes were not blinded by his handkerchief, they were fixed intently on the face of the special deputy attorney general of New York as though the head of the opposing counsel was the man to be convinced. By his side sat his mother and brother.

Jerome opened the extradition arguments by merely saying that the duty of the governor to grant the petition for extradition was plain.

William M. Chase of Concord, former judge of the supreme court and William A. Stone of Pittsburg, former governor of Pennsylvania, argued for Thaw. They occupied an hour and a half after which an adjournment until 2 o'clock was taken. This afternoon was given to Mr. Jerome to reply. Judge Chase and Governor Stone declared that the petition for extradition was insufficient in form and not supported by the necessary evidence and that the state of New York having through its courts declared Thaw insane could not now request from New Hampshire his extradition for a crime which in its nature only a sane man could commit. This crime was conspiracy to escape from the Matteawan Insane Asylum.

(ASSOCIATED PRESS TELEGRAM)
Concord, N. H., Sept. 23.—Harry K. Thaw's real fight for freedom began today. With the opening of the extradition hearing by Governor Feltner, counsel on both sides realizing that the hour of legal sparring for a temporary advantage had passed and that the outcome rested on the interpretation of points of law regarding which few if any precedents had been found.

William Travers Jerome, grim and silent, arrived just before daylight deputized by the state of New York to aid in the surrender of Thaw as a fugitive from justice. He was accompanied by Franklin Kennedy, assistant attorney general of New York. They went from the train to their apartments at the hotel where Thaw is staying and remained in seclusion. Neither would discuss the case.

Counsel for the fugitive maintained their confident attitude that Governor Feltner will not grant the extradition of a chance visitor whose only offense was that he had escaped from a jurisdiction in which he had been held responsible. Many disinterested lawyers held that the case would go from the governor to the federal courts for final determination.

The senate chamber at the capitol where the hearing was called at 11 o'clock, had been arranged for the convenience only of those directly concerned in the case and the newspaper men. The public was excluded except for the admission of the executive council, the members of which were accompanied by their wives. The council does not act with the executive in the matter of extradition but happened to be in session and was invited to the chamber.

Thaw was up early and had final conference with his attorneys before arriving at the senate chamber. He was encouraged by the presence of his mother, Mrs. Mary Copley Thaw who with his brother, Josiah, came here last night.

A great crowd gathered outside the capitol building an hour before the proceedings began.

WERE IN DANGER FROM CURRENT OF A TROLLEY WIRE

Sudden breaking of a guy wire supporting an Ohio Electric trolley wire at the intersection of Second Street and North Park Place, Tuesday morning, brought danger to passing vehicles and pedestrians for several minutes until workmen succeeded in elevating it above the danger point. The guy snapped as an interurban car turned the corner, and loose ends of the high current carrier swung around in the air, flashing electricity. Workmen in the employ of the company kept persons out of the danger zone.

John William Davis, Solicitor General.

John William Davis, the new Solicitor General of the United States, ranking next to the Attorney General and the Government's chief representative before the Supreme Court of the United States, has risen rapidly since he began his life in Clarksburg, W. Va., forty years ago. From country lawyer and college professor, he sprang to the head of the West Virginia bar and became a leading figure in the State legislature. His real rise in Congress began with his assignment to the Judiciary committee of the House. His work as chairman of the special House committee that investigated the assault of Charles C. Glover, a Washington millionaire, upon Representative Sims of Tennessee, in a park at the national capital last April, resulting in Speaker Clark's reprimanding of Glover at the bar of the House, a ceremony that had not occurred for forty years before, brought Davis into national prominence. Mr. and Mrs. Davis, in their electric victoria, are familiar figures in Washington.

Merchant Murdered by Man Who Enticed Him to Hotel; Similar Crimes in Other Cities

(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Sept. 23.—The body of Joseph Schlansky, a merchant, was found late last night in a room at a local hotel, which had been occupied by a young man who had registered as "W. R. Anderson, Louisville, Ky." A strong cord had been tied around the merchant's throat and he had been shot through the head.

Anderson, who is said to have told that he was a salesman, called at Schlansky's store yesterday and asked him to go to his room in the hotel where he said he had some goods to show the merchant. When Schlansky failed to return last night, his family notified the police.

After having killed the merchant, the murderer washed his hands in the lavatory as the wash bowl there was filled with bloody water. The merchant's watch and about \$20 also were missing. The slayer left two notes in which he said he had started to rob the merchant and then killed him.

ROBBERIES IN LOUISVILLE
(ASSOCIATED PRESS TELEGRAM)
Louisville, Ky., Sept. 23.—The murder in Indianapolis last night of Joseph Schlansky, a merchant, who had been lured to a room at a hotel by a young man giving the name of W. R. Anderson, is believed by the Louisville police to be one of a series of crimes alleged to have been committed recently in Eastern and Middle-west cities by Joseph Ellis, alias Robert Duncan, son of a carpet manufacturer of Richmond, Va. Two robberies in this city last week are charged to young Ellis by the police and a bloody suit of clothes which he sold to a second hand dealer here is being held by detectives. Ellis also has been identified by some photographs as the man who recently committed a hotel robbery in Pittsburg, where he gave the name of Fred Brokaw, alias Bojev, alias White Stickers on a suit case carried by Ellis.

COURTS UPHOLD MINISTER'S ACTION IN THAW CASE

(ASSOCIATED PRESS TELEGRAM)
Minot, Sept. 23.—The court of appeals today upheld Charles Doherty, minister of justice, in having seized Harry K. Thaw at Coaticook and deported him. Mr. Doherty, the court held, was entitled to ignore the writ of habeas corpus obtained by Thaw's counsel to prevent Thaw's deportation. In its decision the court announced that the writ had been irregularly served. He granted the application of the government authorities to have it quashed.

DR. RICHARDS' APPOINTMENT IS CONFIRMED

Appointment of Dr. S. S. Richards as a member of the county board of examiners to succeed Dr. J. N. Wright, who resigned to become a member of the board of county liquor license commissioners, has been ratified. Dr. Richards will attend his first meeting of the board Wednesday. Other members are Dr. A. T. Speer and Dr. Roberts of Hanover.

his indicate that recently he has been in Boston, New York, Cleveland, Columbus, Toledo and Cincinnati.

M. Raff, who was the victim of a sensational robbery in a hotel here Saturday afternoon, declared today that a description of the man who gave the name of Anderson in Indianapolis is identical with that of Ellis, who, he declares, robbed him.

The robbery of a residence here is charged to Ellis by the police and the finding of the suit of blood-stained clothes leads the officials to believe that the young man involved in a more serious crime before coming to Louisville.

While here Ellis spent much time in the public library reading, principally books by Edgar Allen Poe and an English writer of detective stories. The young man who had befriended Ellis here received a telegram from Jacob Ellis of Richmond, Va., in which the latter declined to send money to his son.

Ellis is described as about 20 years old; about five feet six inches tall; 130 pounds in weight; athletic build; well dressed and of cultured manners. Ellis purchased a ticket to Indianapolis Saturday afternoon about an hour after the robbery of Raff was committed.

SUSPECT'S FATHER SWOONS

(ASSOCIATED PRESS TELEGRAM)
Richmond, Va., Sept. 23.—Jacob Ellis, father of Joseph Ellis, suspected of crimes in Indianapolis, Louisville and other cities swooned in his little shop here today when informed of the search for his son. "My God," cried the old man. "Can it be that my boy has committed murder. Sorrow is my portion," he added in Yiddish. The father was so agitated that he could not give a coherent account of his son's life.

Joseph, the father said, came here (Continued on Page 12, Col. 4)

ALBANIANS AND SERBIANS FIGHT; 200 ARE KILLED

(ASSOCIATED PRESS TELEGRAM)
Vienna, Sept. 23.—In a fierce battle between Serbian troops and Albanians on the new Albanian frontier, 200 Albanians were killed and a large number wounded. A dispatch to a local newspaper says the fighting occurred near Debra and Jakova, where many of the battles between the Serbian and Turks were fought in the Balkan war. The encounter was brought about by an attempt of several thousand Albanians to penetrate the territory captured by the Serbians from the Turks. They were repulsed. The Serbian troops lost one captain and a considerable number of men. They have since been reinforced.

(ASSOCIATED PRESS TELEGRAM)
Stryker, O., Sept. 23.—The safe in the postoffice here was blown to pieces by burglars last night who secured upwards of \$100 in money and stamps and escaped. The robbery was not discovered until this morning. The sheriff at Bryan and postoffice authorities at Toledo were notified.

GIVES UP FUNCTIONS OF OFFICE

Gov. Sulzer Will Await Outcome of the Impeachment Trial

MOTION IS OVERRULED

To Dismiss the Articles of Impeachment Which Had Been Made by Governor's Counsel—Both Sides in Argument.

(ASSOCIATED PRESS TELEGRAM)
Albany, N. Y., Sept. 23.—D. Cady Herrick, counsel for Governor Sulzer announced at the outset of today's session of the high court of impeachment that the governor would cease henceforth to exercise the functions of the executive office until the termination of his trial.

Nearly all the members of the court were in their seats when the crier, at the direction of Presiding Judge Cullen, sounded the familiar "hear ye, hear ye."

"The court having overruled the motion of the respondent," said Judge Cullen, "to dismiss the articles of impeachment on the ground that the assembly had no right to prefer the charges at extraordinary session, it now becomes incumbent upon the respondent to make answer to the charges."

Judge Herrick had the floor throughout the morning session. After a long address in support of his motion for the dismissal of three articles of the impeachment, dealing with Sulzer's statement of campaign expenses and alleged speculations in Wall Street, he summed up his argument as follows:

"The failure of the governor to file a complete and accurate statement of campaign contributions did not constitute any offense recognizable by our laws."

The election law does not require a statement of contributions made to a candidate.

"The failure of a candidate to file the statement required by this act, is not an offense, but subjects him to a peremptory demand by a court to perform his duty."

William Sulzer never received such a demand.

"The statute recognizes a candidate's right to be given notice of errors in his statement, and his right to an opportunity to correct them. The state cannot call him to account until it first has accorded him these rights."

"The penal code does not require a candidate to file a statement of contributions made to him, and there are no other statutes on this subject."

"Correct statements of facts, inserted in an affidavit but not material thereto, do not constitute perjury."

"Perjury cannot be based on an oath which was neither required nor authorized by law."

"As the election law does not require the statement to be verified, and as neither the election law nor the penal code require the candidate to insert contributions made to him there is no ground for the charge of perjury, nor for the charge of neglect of duty."

These points were advanced in a supplemental brief which came as a surprise to members of the high court, to whom copies of Judge Herrick's original brief had been distributed.

Shortly before the adjournment for lunch, Edwin T. Brackett, began to speak in behalf of the prosecution.

COLD STORAGE BANQUET WILL BE SERVED GUESTS

(ASSOCIATED PRESS TELEGRAM)
Chicago, Sept. 23.—Delegates from all parts of the world who for a week have attended the daily sessions of the six sessions of the Third International Congress of Jurisprudence concluded their consideration of technical subjects today and prepared to adjourn formally tomorrow after one of the most successful meetings of its kind ever held.

Tonight a novel "cold storage" banquet will be served the 500 foreign visitors, every article on the menu having been on ice for at least six months and in some instances longer. As each dish is served its certified history as indicated by the stamp of the United States department of agriculture will be handed the diners. Among the articles of food on the bill of fare are:

Alboreo steak, caught in the Atlantic ocean seven months ago; Columbia river salmon, a year old; Tennessee turkey, nine months old; Kansas chicken, eleven months old; beef two years old; eggs 18 months old.

John Avery McIlhenny, Chairman
Federal Civil Service Commission

A wealthy pepper grower, a loyal Democrat whose most conspicuous friend is a former Republican President who, at Chicago, jumped to the leadership of the Progressive party, John A. McIlhenny, the new chairman of the Federal Civil Service, is a notable personality. McIlhenny was a rough rider, a trooper in Roosevelt's First Cavalry, who became second lieutenant for gallantry in the San Juan Hill dash. He is an all around good fellow in politics who has quietly born the slogan of better government. As a Louisiana sportsman, he entertained Roosevelt when the latter was President, and piloted him on a famous bear hunting expedition. McIlhenny has been seven years with the Civil Service Commission as a Roosevelt appointee, and recently was chosen chairman. He succeeded Gen. John C. Black.

Secretary Graves Promises Decision on Petition Frauds After Arguments Wednesday

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Sept. 23.—Final affidavits of fraud in connection with the Ohio Equity Association's referendum petitions on the Green, Barnes and Kilpatrick laws were submitted to Secretary of State Graves today. Assistant Attorney General Dempsey filed notice that the attorney general's office would ask that the petitions be declared invalid on the ground that the whole procedure was honeycombed with fraud.

Mr. Graves announced that he would hear the summing up of arguments tomorrow morning and that his ruling would follow immediately.

Samples of loose work by petition circulators in Columbus and Cincinnati were shown in the hearing this morning.

The request for the attorney general's office that all of the petitions be thrown out came after hundreds and even thousands of specific signatures had been contested on the ground that they were either forged outright by paid petition "peddlers" secured under misrepresentation, or not sworn to properly by the circulators who obtained the names for the Equity Association.

ATTY. THATCHER REINSTATED BY SUPREME COURT

(ASSOCIATED PRESS TELEGRAM)
Columbus, Sept. 23.—Charles A. Thatcher, Toledo attorney, disbarred by the Supreme court early in 1909, after charges had been filed against him alleging that he lured the common pleas judges of Lucas county, was reinstated this morning by the Supreme court. That he has been fighting for three years to secure the right to resume his practice. He made a motion for reinstatement some months ago.

The case has been bitterly fought on both sides, members of the Lucas county bar being widely divided for and against Thatcher.

Last summer Thatcher became an independent candidate for one of the Supreme court judgeships and asked his election as a member of the body that had disbarred him, as a vindication of himself and a repudiation of the action of the Supreme court in his case. At the November election he fell he was defeated, his vote, however, was surprisingly large and well up with that cast for the successful judicial ticket.

REFUGEES FROM INTERIOR REACH MEXICO CITY

(ASSOCIATED PRESS TELEGRAM)
Mexico City, Sept. 23.—Twenty-five American refugees from the state of Durango arrived here today, having traveled overland to Zacatecas where they boarded a train for the capital. Out of the normal American population in Durango of 2,000 less than 25, all men, remained there.

Of the American refugees arriving today on their way to the United States, a number formerly were well to do. They are now penniless. Most other foreigners also have left the state of Durango, according to the refugees who say that the rebels mob Mexicans and foreigners indiscriminately.

CROSS-PETITION FILED BY WIFE OF CLERGYMAN

(ASSOCIATED PRESS TELEGRAM)
Cleveland, Sept. 23.—Mrs. Mae Fee Patterson, wife of Rev. Gerard F. Patterson, rector of the Church of the Incarnation here, today filed a cross-petition to her husband's petition for divorce.

Rev. Patterson charged misconduct on the part of his wife. Mrs. Patterson, who is now in Brighton, Eng., alleges non-support.

About the same time that Mrs. Patterson's petition was filed, a decree of divorce from Martin Van Vorhes Lloyd, a wealthy business man, was granted Mrs. Margaret Lloyd.

Lloyd was named in Rev. Patterson's suit.

FOUND ARTERIES BADLY DISEASED; DEATH NATURAL

(ASSOCIATED PRESS TELEGRAM)
Springfield, O., Sept. 23.—Dr. Ellis Schilling, the pathological expert for the defense in the second trial of Dr. Arthur B. Smith, charged with having poisoned his first wife, Florence Catherine Smith, was the first witness to take the stand when the defense began its side of the case Tuesday. Dr. Schilling was kept on the stand for a greater part of the day.

In reply to the hypothetical question of a defense, the witness said that he thought death was due to natural causes. Dr. Schilling made an examination of the heart and coronary arteries of the dead woman and said that he found a decided sclerosis within them. The experts for the state denied that any material thickness of the vessel could be found.

UNKNOWN MAN FALLS IN MUD AND HE DROWNS

(ASSOCIATED PRESS TELEGRAM)
Cleveland, O., Sept. 23.—A man about 70 years of age, whose name, from a card found in his pockets, is believed to be Theodore Boardman, was found dead in the wagon shed at the rear of an electric depot at Chargin Falls, early today. The corner examined the body and said that the man probably had tumbled headfirst into a mud puddle and drowned.

NEGOTIATE NEW TRADE TREATIES

President Wilson and Secretary Bryan to Undertake Task

EXISTING RELATIONS

With Foreign Nations Will Be Continued for Four Months—Conferees Resume Work on the Tariff Bill.

(ASSOCIATED PRESS TELEGRAM)
Washington, Sept. 23.—International aspects of tariff revision drew the attention of tariff conferees again today, when further consideration was given to the plan to supplement the tariff bill with a special congressional resolution, assuring foreign nations that existing trade relations will be continued four months while President Wilson and Secretary Bryan undertake to negotiate new trade treaties.

The text of the resolution being prepared by the state department had not been submitted to the conferees when they resumed work on the tariff bill today, but it probably will be laid before them for approval within a day or two.

It will be introduced in both houses by Democratic leaders and supported as a portion of the tariff program. Senator Simmons, chairman of the joint tariff conference committee is confident that foreign powers will not undertake any tariff reprisals against the United States. In almost every instance, it is pointed out, the rates of the new tariff law will give further advantages to foreign merchandise and its terms will apply impartially to the imports from all nations.

The purpose of the joint resolution, he said, is to prevent the automatic application of higher tariff rates by countries that have maximum and minimum tariffs. While all existing trade agreements terminate with the end of the present tariff law, it is hoped the trade relations can be continued without change for a four months period, the United States enjoying "favored nation" treatment from the other countries, and giving in exchange the promise that new treaties will be made up at once. The last sections of the bill were taken today by the Democratic conferees when they began work on the administrative portions of the bill. At the same time a sub-committee, aided by Representative Hull of Tennessee was working on the income tax provisions. The committee on future tax disputed items involving tariff duties on cotton cloths, lead and zinc, or the date when the free wool provision shall apply and several other provisions were still open for further consideration.

GOVERNOR OF YUCATAN IS IN ARIZONA
(ASSOCIATED PRESS TELEGRAM)
Tucson, Ariz., Sept. 23.—Dr. Nicholas Cammarra, governor of the state of Yucatan, Mexico, arrived here yesterday on his way to Hermosillo, Sonora. With other governors opposing the Huerta central government he said, he would confer with governor Venustiano Carranza, leader of the Constitutional movement. Dr. Cammarra was accompanied by Eagle Pass by E. Florilla, representative of Carranza. The proposed conference at Hermosillo was said to be for the purpose of bringing into closer relations the various state governments already in arms against the federal government. Dr. Cammarra speaking, he said, for other insurgent governors, declared that the Constitutionists would not recognize any election conducted by the Huerta government.

READY FOR TRIAL OF NEW AIRSHIPS

Lieutenant Milling to Supervise Test in October.

STUDENTS WANT LICENSES.

Three New Machines, a Burgess, a Wright and a Curtiss, All Equipped With Foreign Engines, Will Be Tried Out—Special Badge Given as License—Several Anxious to Try.

Washington.—October has been set for the month, but no definite date has yet been set for the trial of the new flying machines that will be tested for the army at the Wright factory at Dayton, O. Lieutenant Thomas Milling will be officially detailed to supervise the tests. It is probable that General George P. Scriven, chief signal officer of the army, and possibly some other officers of the army also will attend.

There will be three of the new machines—a Burgess, a Wright and a Curtiss—all equipped with foreign engines. The motors will run from 90 to 140 nominal horsepower and will be the most powerful ever installed in government machines. None of these new machines will be intrusted to any but the officers who have qualified for

Lieutenant THOMAS MILLING, the military aviator certificate. The older machines will be reserved for training.

The army has decided on the design and obtained one specimen of the military aviator's badge. It is considered the handsomest thing in the way of a badge that the government has ever assigned. It has a plain gold bar with the words "Military Aviator" in black enamel. Beneath the bar there hangs an eagle with extended wings carrying in its claws crossed signal flags in gold and platinum.

Several of the students officers in the Philippines are just ready to try for their military pilot's license. They are Lieutenants Chapman of the Seventh cavalry, Rich of the Philippine scouts and Dargue of the coast artillery. They have all been trained as aviators under Lieutenant Frank Lahm, who was the first of the army officers to be trained by Wilbur Wright at College Park. Lieutenant Lahm has not been flying continuously, but he is in point of service the oldest military aviator in the world.

Another of the student aviators who are about to take their military test is Lieutenant E. L. Ellington at San Diego.

According to present arrangements, when the officers have qualified as military aviators they will be retained at their posts to act as instructors to other student aviators detailed to the service. Some of the older men probably will be sent this fall to the main aviation center at San Antonio, Tex.

Considerable interest has been aroused not only among the aviators, but throughout the army, by the issue of the new army signal book by the signal corps. This contains the American Morse and the International Morse, the flag, lantern, Ardoin lights and all the other systems of signaling used in the army. It is the essential manual of army signaling. The revised edition has been compiled by General Scriven, the chief signal officer of the army. One of the interesting features of the book for the little book is the general desire of the boy scouts for copies. The scouts all over the country seem to be going in for signaling, judging by the mass of applications they have filed for the book.

After the house committee on military affairs had thoroughly discussed the aviation problem last week it was practically decided to make no change in the present arrangement in the army, but to leave the aviation work under the signal corps, where it has heretofore been.

NUN DESERTS CONVENT.

Sister Leocadia Believed to Be Teaching Music in New York.

Niagara Falls, Ont.—Sister Leocadia, teacher of music at Mount Loretta Convent, at Falls, a mile south of this place, has left the convent, where she had spent more than twenty-five years of her life. It has just become known that Sister Leocadia, apparently wearying of the life within the cloister, made her departure from the convent several months ago. It is believed that she made her way to New York and is trying to earn a livelihood by teaching music.

At the age of eight Margaret Coulter of Philadelphia joined the Mount Loretta convent. She was an orphan who had one brother. Her next nearest relative was a uncle. She became a novice at the age of sixteen and took her final vows at the age of twenty-one, when she became known as Sister Leocadia. Soon after she took the veil she became teacher of music in the convent.

Girls from all sections of the United States and Canada have studied music under Sister Leocadia. It is said that she was very popular among her pupils as well as among the sisters of the convent because she was comely in appearance and charming in manner. Her beauty had often been remarked by persons who were in the habit of visiting or passing the convent.

Mount Loretta Convent is the parent institution of the Loretta Sisterhood in Canada. When inquiries were made recently at the convent for Sister Leocadia it was learned that she had not returned. Mother Joseph, assistant to the mother superior, said that Sister Leocadia had gone away, and she added that she did not know her whereabouts. Mother Joseph, however, said she believed that Sister Leocadia was somewhere in the United States.

QUEEN MARY BARS BIG GAMBLING CLUB

Consort Ends Plans For Exclusive Woman's House.

London.—Queen Mary by reason of her unconquerable aversion to gambling in any form by women has prevented the establishment of a woman's club in London which, from a social point of view, by far would have outranked any existing woman's club in the city and which, in fact, would have been a kind of woman's Marlborough club.

The incident at the same time shows, however, in spite of the queen's strong and constantly demonstrated objection, the society women of England are equally determined not to be deprived of their big or little gambling.

A plan was formulated a short time ago to start a woman's club the membership of which was to be restricted to past and present ladies of the various royal households in England. At first everything pointed to its immediate great success. Nearly every royal lady residing in England promised to join, and a strong body of ladies of the royal households immediately came in.

Of course it was absolutely essential that such a club should have the support of the queen, as she is the head of the select body from which the members were to be selected.

Lady Agneta Montague, the organizing secretary of the club, immediately approached Queen Mary as soon as the successful establishment of the club was assured. A couple of weeks ago the queen wrote to Lady Agneta that she would join the club, but only on the condition that there should be no card room in it and that no male visitors should be received.

These conditions were made known, and two weeks sufficed to show that they rendered the formation of the club impossible, for of the 180 ladies who formed the original nucleus of the organization 140 have now withdrawn their names. As a result the scheme has been abandoned.

LAST OF CROW INDIANS.

Lake Metimop Dies on Reservation Near Saginaw, Mich.

Saginaw, Mich.—Lake Metimop, said to be the last of the Crow Indians, died on a reservation near Saginaw. For many decades he was closely associated with the Crow reservation, and for some time had been its only living founder. He had been blind for the last three years.

While some people doubted that the Indian was as old as he claimed to be, 107 years, it was believed that he was Michigan's oldest inhabitant. Metimop, better known as Met Wop, settled in the Saginaw valley before white men commenced to colonize that section. Although a leader, he was considered more of a farmer than a fighter.

"THE DEPENDABLE STORE FOR WOMEN"

Tendency of Women to Talk Is Growing Less

By M. DUBUDOT, French Scientist and Traveler

THE TENDENCY OF WOMAN TO TALK IS GROWING LESS, AND IF THIS DECLINE KEEPS UP THE WOMAN OF A THOUSAND YEARS FROM NOW MAY BE MAN'S SILENT PARTNER, SPEAKING SELDOM AND ONLY WHEN WORDS ARE ABSOLUTELY NECESSARY.

This strange change can be explained in several ways. For that there has been a change I have no longer any doubt after extended observation not only in France, but in America and England and Italy and Spain.

Take, for instance, women in restaurants and at public places of all kinds, where they are seen freely moving about with men. Everywhere you see the MEN TAKING NOT ONLY THEIR SHARE IN THE CONVERSATION, BUT EVEN LEADING IT IN MANY CASES. At receptions, too, and at public dinners the fair sex seem for some time now to be LETTING THE REINS OF CONVERSATION SLIP FROM THEIR HANDS.

One explanation for this state of affairs is that women, with their growing interest in outside doings, in business and politics and in the strenuous pursuit of careers independent of men, are BECOMING MORE AND MORE SELF ABSORBED.

FREE—Get This Diaper

Pattern and Save Your Baby From Pins

The Pinless, Buttonless Diaper has come and these stores have gladly volunteered to give the Pattern Free to every mother and every nurse. Half the tears and half the suffering of your little baby will be banished when you use this comfortable, convenient style of diaper that you can cut and fold yourself from this Free Pattern.

Think of it—not a pin to come unfastened and jab and stab the helpless little child. Babies have suffered tortures from the pricks and scratches of the deadly "safety" pin that is safe only as long as nothing unusual happens to unfasten it. Babies have been poisoned by pin-stabs and scratches.

The new Pinless Pattern of Diapers is not for sale—not a cent will be taken for it—but every mother and every nurse may have the pattern absolutely free. And this style of Diaper is scientific—it has extra thickness where needed, but not a particle of bulkiness to get on baby's sensitive nerves or make him bow-legged, as less scientific, old-fashioned diapers may.

Free at These Stores

These stores will be glad to give you this new Pinless and Buttonless Pattern of Diapers Free of all cost and without obligation—simply ask or send for one.

MADE IN NEWARK EXPOSITION IS BEING BOOSTED

It seems that the statement to the effect that the "Made in Newark" exhibition in the Arcade would be dropped was premature. The plans had progressed to such an extent that a few of the more progressive manufacturers were loath to abandon such a good project and opportunity to display their goods.

The committee were besieged with applications for space, and believing that half a loaf was better than none, decided to go ahead and have a display.

The following manufacturers have thus far registered and will exhibit their product:

Styron-Beggs Co., Manual Training, W. G. Russell, Burke Golf Shaft Co., Midland Shoe Co., Good Hair Soap Co., Newark Reflector Works, E. H. Everett & Co., J. F. Cherry & Co., Jones & Sons, A. H. Helsey & Co., Domestic Science, Advance Glass Co., Wyeth-Scott Stone Co., Newark Ladies' Tailors, Newark Rubber Stamp Works, E. T. Kugs & Co., Wyeth Buggy Co.

A few good windows remain unassigned as well as floor space through the center of Arcade. The Arcade company and Arcade merchants are donating this space gratuitously and every manufacturer should take advantage of this opportunity during the week of September 29th.

For information, space assignment, etc., call or apply in person to No. 20 Arcade, Mr. Eade, or telephone No. 1707.

ITALIAN MINISTER DIES SPEAKING AT A BANQUET

(ASSOCIATED PRESS TELEGRAM)

Turin, Sept. 23.—All Italy mourned yesterday for Teobaldo Calissano, minister of posts and telegraphs and the youngest member of the cabinet. His death occurred under very dramatic circumstances. He was presiding at a banquet attended by 300 of his constituents and was delivering a speech in which he referred to the principal points of Premier Giolitti's platform at the approaching general election—the Libyan war, the introduction of national insurance and universal suffrage. Suddenly he turned pale, his voice faltered and he collapsed into his chair.

His sons came to his aid but found him dying. A priest was called and administered the last rites.

The minister had an engagement to assist at the opening of a new railroad station at Cuneo today. The function was performed by the king, who desired not to disappoint the citizens of Cuneo.

BRYAN EDUCATES JAPANESE BOYS

(ASSOCIATED PRESS TELEGRAM)

Washington, Sept. 23.—During the brief defense of Secretary Bryan's tours, Senator Martine told the Senate that some of Mr. Bryan's "fixed charges" were the education of several young men.

"A few years ago, Mr. Bryan was maintaining and educating two boys from Japan," declared Mr. Martine, "and today I believe he is educating three or four young men."

No other senators continued the subject and Mr. Martine's speech did not reveal who were Mr. Bryan's proteges.

The Human Procession

Rear Admiral Herbert Winslow, of the retired list of the United States navy, was born in Roxbury, Mass., sixty-five years ago today. His father was Rear Admiral John Antrim Winslow, a distinguished sea fighter of the Mexican and Civil wars. From his youth the son was destined for a naval career, and he entered the United States Naval Academy in 1865, graduating four years later. After five years of service he was promoted to the rank of lieutenant, and was placed in command of the United States ship Saranac, which was wrecked in Seymour's Narrows, British Columbia, 1875. The gallant young officer was the last man to leave the ship. In 1887 he was made lieutenant-commander, and was in charge of the Fern at the battle of Santiago, in the Spanish-American war. During the Boxer rebellion in China he was in command of the United States ship Solace and landed the first detachment of marines at Taku. He was made a rear-admiral in 1905. His last sea command was the United States ship Kearsarge, which was named, at launching, by his wife, daughter of Lafayette Maynard of San Francisco. Admiral Winslow went to the retired list three years ago today, and was given leave to go abroad, where he studied the navies of Europe. He was one of the passengers on the maiden voyage of the Emperor last June.

His father, Rear Admiral John Antrim Winslow, was a native of North Carolina, and entered the infant navy of the United States as a midshipman when only sixteen years old. He served gallantly in the Mexican war, and during the civil war was in command of the old Kearsarge on special service in pursuit of the privateer Alabama. He found and blocked her in the harbor of Cherbourg, France, in 1864, and in the subsequent engagement, lasting an hour and twenty minutes, so shattered the Alabama that she quickly sank. He afterward commanded the Gulf squadron, the Pacific fleet, and the Portsmouth navy yard, and died in Boston forty years ago this month.

Edmund Gosse, the famous English critic and poet, was born in London sixty-four years ago today, and began his literary career forty years ago with the publication of a volume of verse entitled "On Viol and Flute." His most recent work, "Portraits and Sketches," is a highly interesting volume of literary reminiscences. In it he gives his impressions of many of the most eminent men of letters of the last generation. He devotes many pages to Swinburn, "not only a poet but a flag; and not merely a flag, but the Red Flag incarnate." When Gosse made a lecture tour through America in 1884 he seized the opportunity to visit Whitier, then "staying with female relations at a house called Oak Knell," and he relates in an amusing manner how the door was twice slammed in his face before he was finally "grudgingly admitted by a hard-featured woman! He found the Quaker poet a kindly and gentle spirit, and the visit well worth the harsh preliminaries of New England hospitality." Tennyson, Browning, Andrew Lang, Aubrey de Vere, the eccentric Richard Hengist Horne, and many other eminent poets of a generation now breathing its last, are described with a friendly and illuminating pen by a man who knew all of them intimately.

WOULD COMPROMISE IRISH HOME RULE

ASSOCIATED PRESS TELEGRAM
London, Sept. 23.—The prospects of the attempt to bring about a compromise in Irish home rule question have sensibly improved, according to the Pall Mall Gazette, a Unionist newspaper which today says it is able to state that important communications have passed informally between the British cabinet ministers and the leaders of the opposition.

In the meantime Sir Edward Carson, leader of the Irish Unionist party has started on the second week of his Ulster campaign by delivering speeches which have led the Liberal newspapers to ask whether he should not be prosecuted for sedition or be deprived of his membership of the privy council.

The business part of the Ulster campaign was entered upon today when the Ulster Unionist members of parliament were informed of the civil and military plan to be pursued when the home rule bill for Ireland becomes law and were also admitted to knowledge of the leading features of the proposed provisional government for the north of Ireland.

BIG 4 BONDS WORTH MORE

ASSOCIATED PRESS TELEGRAM
Columbus, Sept. 23.—Big Four mortgage bonds have increased in value on the market since last month, but have declined since last April, judging from two supplemental petitions filed with the state utilities commission today. The Cleveland, Cincinnati, Chicago & St. Louis railroad asks permission to sell \$578,000 general mortgage bonds, the balance of a \$1,578,000 bond issue authorized in April at 81 per cent par. The greater part of this issue sold for 93 per cent. Last month the road asked permission to sell \$758,000 mortgage bonds for 78 per cent, but now it thinks it can get 81 per cent, and asks that this rate be authorized.

FIRST VISIT OF OLD SOLDIER IN FORTY YEARS

William Clugston, a member of the Soldiers' Home at Danville, Ill., is the guest of friends in this city, having come here to visit his brother, Aaron B. Clugston, whom he found had left the city and gone to Sandusky to enter the Soldiers' Home at that place.

Wm. Clugston was a member of the 32d Ohio and has a splendid military record, having served throughout the war with honor and distinction, taking part in many memorable battles. He left Ohio 40 years ago and in 1874 was badly crippled by being shot in the left leg at the Indian uprising at Darlington, Okla.

Mr. Clugston was born at Mt. Sterling, O., was reared at Linville, Licking county, and has many friends who were glad to meet him as it was his first visit back to the scenes of his youth in 40 years. He is hale and hearty and is enjoying his visit immensely. He will return in a day or two to Danville, to look after business interests in that city.

FOOD DISCUSSED BY DELEGATES TO BIG CONVENTION

(ASSOCIATED PRESS TELEGRAM)
Chicago, Sept. 21.—Three big organizations all concerned with the food problem, discussed more or less technical subjects at sessions here Monday. The International Congress of Refrigeration, the Meat Packers Association and the National Poultry, Butter and Egg Association met separately but their programs were related and they chose the same convention date because of their community of interests.

Butter and egg men have as their prime object a unification of the standards of classification of poultry, butter and eggs. At present, according to C. E. McNeill, secretary of the association, each member is a law unto itself in grading. "Seconds" may mean one thing in Philadelphia, another thing in New York and still another in Chicago.

Departing for the moment from the technicalities which have characterized all papers read at the refrigerating congress, J. M. Bottemann told the delegates how to tell good fish from bad. The criterion is:

"Good fish—skin shiny, eyes transparent and bulging, gills bright red, flesh elastic and firm; finger impressions do not remain; mouth and gills nearly always closed, little or no slime on the skin; muscular stiffness evident to greater or less degree; fish sinks in water; after a short time fishy smell and slime on back appears."

Thus far at the congress 716 delegates have registered.

First Things

The first Roman Catholic periodical in the United States was established in 1822 at Charleston, S. C., by John England, first bishop of Charleston. The United States Catholic Miscellany was the title of the publication which was the pioneer in a journalistic field now occupied by scores of able journals in all sections of the United States and Canada. Bishop England was born in Cork, Ireland, 127 years ago today, Sept. 22, 1786, and was the editor of a weekly paper, "The Religious Repository," published in Cork, before he was consecrated bishop of Charleston in 1820. The next Catholic journal, "The Truth Teller," was published in New York by William Denman in 1829. "The Shamrock," founded a little earlier, was also Catholic, but was not strictly a religious periodical. The first religious journal in America was the Boston Recorder, founded in 1816. The Boston Watchman and Recorder and the New York Observer were founded in 1819 and 1820, respectively. The first anti-religious paper, the Boston Investigator, was founded at about the same time.

GOODBY ICEMAN THE COALMAN IS HURRYING ALONG

Tuesday morning's crisp, chilly air was the best bracer of the season, since the season was only a trifle over twenty-four hours old. Yet, for such a young fall it has already established quite a record. Tuesday morning found a little coat of ice over the surface of the water left outside in a bucket just to test the temperature. It also found the stuff in the tube sticking around thirty-four degrees above zero at 6:30 a. m., with a rise of ten degrees in an hour and a half, when it registered forty-four degree at 8 o'clock.

A sudden shutting off of the ice season has caused local dealers to call in several of their wagons, but the coal supply remains inadequate for the demand.

A heavy frost confronted the early risers Tuesday morning and vegetation suffered as a result.

Washington, Sept. 22.—At present there are 614 cadets under instruction at West Point, although the law intended there should be only 550. (ASSOCIATED PRESS TELEGRAM)
Dublin, Sept. 22.—The boys in one of the "Christian Brothers" schools went on a strike yesterday. They demand among other things an extra half holiday and the destruction of books published by firms which employ strikebreakers.

A crowd of the boys attacked another school where the students refused to strike and smashed a number of windows.

ECZEMA ON SCALP ITCHED AND BURNED

Would Fester and Come to Head.
Could Not Sleep. Hair Fell Out.
Cuticura Soap and Ointment
Cured in Two Weeks.

R. P. D. No. 2, Seymour, Mo.—"My scalp broke out with fine pimples at the start. They itched and burned so much that I was compelled to scratch them and they would fester and come to a head and break out again. The trouble was attended by such burning and itching I could not sleep, also when I sweat it burned the same. My hair fell out gradually and the scalp kept rough and dry with itching and burning. After about two years the pimples broke out between my shoulders. My clothing irritated them. I was troubled with this eczema five or six years.

"I tried everything that was recommended without any benefit until I used the Cuticura Soap and Ointment according to directions, and Cuticura Soap and Ointment cured me sound and well in two weeks."

(Signed) R. L. KILMER, Nov. 22, 1912.

For a complete and complete description of the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. OUR
MOTTO:
NOT
HOW
CHEAP,
BUT
HOW
GOOD

Good Quality Is the Basis of Good Style

What are the new styles for the coming fall and winter? First of all there are so many new styles that every woman can wear just what she looks best in, and yet be in the height of fashion. It is decidedly the fashion to be becomingly dressed.

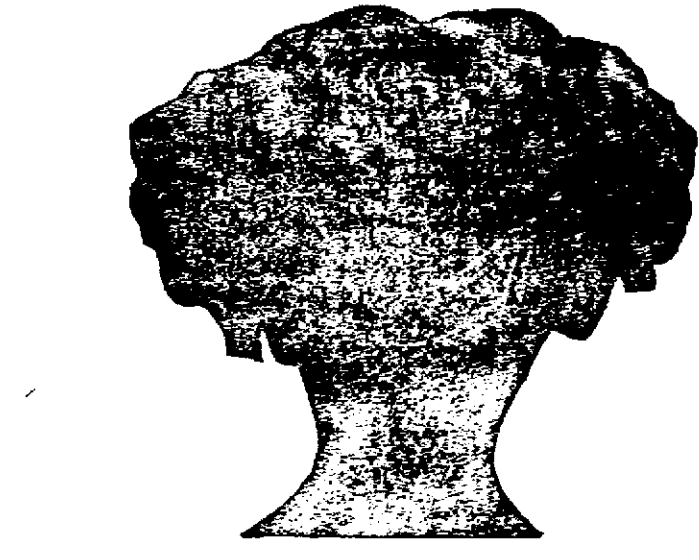

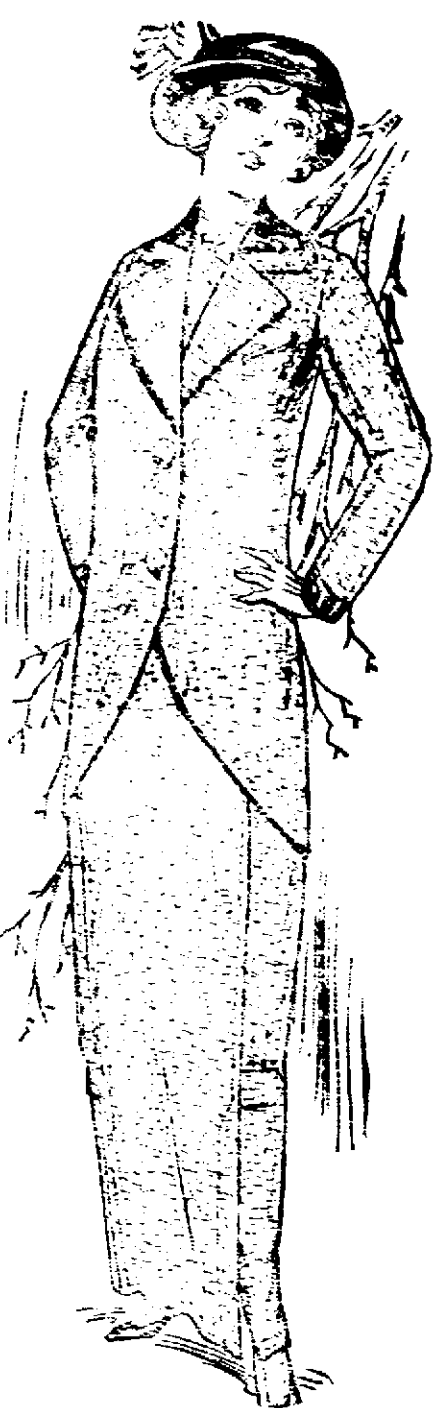

Dow Do The Styles Differ From Last Season

All the new suits, coats and dresses are much more picturesque than last season. Many suit jackets are cutaway. The lengths differ just as much as women differ in height and figure. There are draperies galore. They seem to belong to the dresses that are made of the softer fabrics, some draperies simply suggest a drapery, others come in a multitude of folds.

The collars are varied and very clever. Some have many adjustments and seemingly make two or three collars out of one. For example, the Glen-garry collar of the Woolrich coats is one of the very cleverest. Pockets adorn jackets and coats. Not many skirts are slashed.

There is no one fashionable color. Many women are wearing black or blue because they look so satisfactory after hard wear. There are many copper shades, browns and greens, and all sorts of invisible mixtures, but the prominent colors are black, blue and brown for general wear.

Come in this week and be your own judge. Only remember that "GOOD QUALITY IS THE BASIS OF GOOD STYLE".

GIVES UP

(Continued from Page 1.)
misuse of campaign contributions from being told on the witness stand.

Defeated yesterday by a vote of 51 to 1 on the question of dismissal of impeachment on the grounds of its unconstitutionality the governor's counsel today offered a motion to strike out the three articles of the impeachment charging him with filing a false statement on campaign contributions and the use of funds for speculation in Wall Street.

The motion was prepared by D. Cady Herrick, who argued that the alleged offenses were not impeachable on the ground that they were committed before the governor was sworn into office.

Former Senator Edgar T. Brackett was appointed special attorney in behalf of the assembly. His report which was made public held in substance that the acts of a candidate for political office during a campaign and after he has become an officer-elect are so intimately connected that the actual heading of the office as to be inseparable.

The decision of the court on this whether affirmative or negative should clear the decks for beginning the actual trial of the case tomorrow unless something unforeseen arises. Conviction on any one article might result in removal.

Judge Herrick, chief counsel for Governor Sulzer then took the floor. He announced that in view of the fact that the court had refused to dismiss the proceedings, the governor would renounce his claim to the right to exercise the functions of governor pending the termination of the trial.

"When these articles of impeachment were first presented," Judge Herrick said, "the governor was advised that there was doubt about the legality of the proceedings and for that reason he declined to step down from his office. Ever since the recent decision of Supreme Court Justice Mahoning, ruling that he had not the right to pardon a prisoner, he has continued to exercise any of the functions of his office. Governor Sulzer will perform no functions of governor in the future pending the termination of his trial."

One of the leading Sulzer lawyers, Judge Irving G. Varn of Syracuse, was forced to return home today on account of illness. His brief in support of the contention that the assembly was without authority to impeach for offenses which occurred before the governor assumed office was read by one of the other lawyers.

SIMILAR CRIME IN TOLEDO.

(Associated Press Telegram)
Toledo, Sept. 22.—Local police believe that the murderer of Joseph Schlausky in a hotel in Indianapolis, is the man who also, on September 11, enticed Charles Sakolsky to a room in a local hotel under pretext of showing samples of clothing offered at a bargain. Sakolsky was robbed of \$5.50, all the money he had in his possession and beaten to unconsciousness. The robber escaped. A similar robbery occurred in a Cleveland hotel the previous day.

WANTED IN CLEVELAND.

(Associated Press Telegram)
Cleveland, O., Sept. 22.—The local police said today that they have been asked by the Indianapolis police for a description of the man who on September 10 enticed Samuel Cohen, a tailor into a hotel room here, and binding and gagging him, robbed him. It is thought that he may be the same man who robbed and killed Joseph Schlausky in an Indianapolis hotel.

AT PITTSBURGH, TOO.

(Associated Press Telegram)
Pittsburgh, Sept. 22.—Superintendent of Police Thomas McQuade this afternoon sent to the chief of police at Indianapolis a photograph of Fred Brokaw in the belief that he may be identified as the murderer of Joseph Schlausky last night. Brokaw is wanted by the police here for enticing a second hand clothes dealer to his room in a prominent hotel and robbing him, leaving the man bound and gagged. Until news of the Indianapolis crime reached here the police believed Brokaw was under arrest at San Francisco, and arrangements had been made to return him to Pittsburgh.

VICTIM AT PHILADELPHIA.

(Associated Press Telegram)
Philadelphia, Sept. 22.—The hotel holdups in the middle west and the murder of a clothing merchant in an Indianapolis hotel recalled to the Philadelphia police today a robbery in a local hostelry on Sept. 6, by a young man who registered as "Fil Duncan" but gave no address. He lured a second hand clothing merchant to the hotel room on the pretense that he had some clothing to sell, held him up at the point of a revolver, and bound, gagged and robbed him.

"Fil Duncan" was described as about 22 or 23 years old. After this robbery the police learned that a similar holdup occurred in a Pittsburgh hotel, the robber's description agreeing with that of "Fil Duncan."

BANKER TAKES FINANCE TO THE PEOPLE AND BALANCES HIGH COST OF LIVING

One of skyscrapers people's money built and S. W. Straus.

The high cost of living has been set to useful work. It is building skyscrapers and apartment buildings. It is being balanced by harnessing the demand for higher income.

During the years when the wild-catters harvested three or four hundred millions annually, the major factor was the cost of living which created the need for higher income from savings.

Then came the new idea. A Chicago banker, S. W. Straus, proposed that bonds of small denominations bearing five per cent be issued, funds secured by first mortgage on improved city real estate and maturing serially. Instead of making the improvement of city property the business of rich men, he worked out a way by which the big sums for mortgages under which skyscrapers and apartment houses are financed could be split up fine

enough for small investors to take a part.

A large part of the urban building operations in Chicago are now being carried on by means of such bonds. Millions of dollars of individual savings have been made available for building.

"In spite of concentration of capital, the basis of the financial world today is really a democratic one," declares Straus.
